

REMARKS

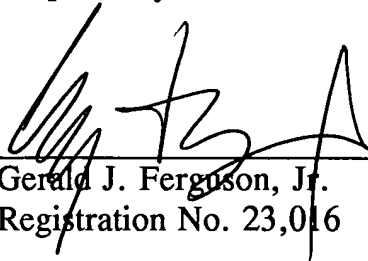

New claims 16-23 are added and are generic to the use of both photo and plasma energies together with the use of TEOS to form films on a substrate. Dependent claims 24-29 generally respectively correspond to former claims 7, 11, 12, 13, 14, 15 and 7.

Since claim 29 generally corresponds to former claim 15 (species (3) as identified in the Office Action). Applicant hereby elects the species of claim 29 together with the aforementioned generic claims 16-23.

It is noted that the subject application is related to a Rule 60 divisional application filed May 12, 1993 based on Serial No. 07/842,758 which is directed to a method and apparatus utilizing photoplasma CVD. Also submitted herewith is a Form-1449 listing the prior art cited in the foregoing '758 application. It is requested this art be considered and made of record.

Examination on the merits is now requested.

Respectfully submitted,
